

Napersoft Selected as Presenter at *Health Data Initiative Forum III: The Health Datapalooza*

Naperville, IL—May 22, 2012—[Napersoft](#), a leading provider of commercial off-the-shelf (COTS) Customer Communications Management (CCM) software, has been selected as a presenter at the Health Data Initiative (HDI) Forum III: The Health Datapalooza, hosted by the Institute of Medicine (IOM) and the U.S. Department of Health and Human Services (HHS).

This event, which takes place in Washington, D.C., June 5-6, 2012, brings together a diverse group of data experts, technology developers, entrepreneurs, policy makers, health care system leaders, and community advocates to support innovative applications of health and health care data. Napersoft will demonstrate Text2Health™, during the Apps Demos, which feature the newest health data apps and products focused on consumers, care, and communities.

Text2Health is a Blue Button® Patient Empowered Payer to Provider eHR Exchange. The application facilitates reduced medical error rates and improved patient-provider communications through:

- A secure, mobile-friendly web-based user interface
- The creation of personalized, professional looking eHRs
- eHR delivery through multiple channels simultaneously based on patients, payers and providers individual preferences—view, print, e-mail, fax or other formats

Napersoft has specialized in providing Customer Communications Management software solutions built on innovative, new technology since its founding in 1986. Napersoft's international client base includes State Government agencies and Fortune 1000 companies within insurance, financial services, telecom, utilities and other industries.

If you are interested in attending the Health Data Initiative Forum III, please visit the [HDI Forum III website](#). To find out more about Napersoft's Text2Health Apps Demonstration, please contact Ted Haddad, Senior Business Development Manager: Ted.Haddad@napersoft.com or visit <http://www.napersoft.com/news/events.htm>.
